GEKKO SYSTEMS
 specialises in the design
 and development of
 mineral processing
 equipment with particular
 emphasis on gravity
 separation.

The company's motto
 "from challenge comes
 innovation" reflects our
 focus on pro-active
 and progressive solutions.

The combination of unique design features on the IPJ result in a number of key performance benefits:

- Highly efficient pressurised design upgrades feed for as little as US\$ 0.01 per ton operating costs
- Single hydraulic cylinder for high availability
- Application specific ragging provides for clean specific gravity cut points
- Advanced PLC controls & hydraulic pulse system produces a saw tooth pulse for maximum recovery
- Lockable inspection hatches ensure high security
